FINANCIAL RISK MANAGEMENT

From Metrics to Human Conduct

FRANTZ MAURER

PREFACE BY MARC BERTONECHE

An abstract geometric pattern composed of numerous 3D rectangular blocks or prisms. The blocks are arranged in a complex, overlapping fashion, creating a sense of depth and movement. The colors are primarily warm, including shades of orange, red, and yellow, with cooler tones of blue and green interspersed. The lighting appears to come from the upper left, casting shadows that emphasize the three-dimensional nature of the blocks.
