Table of contents

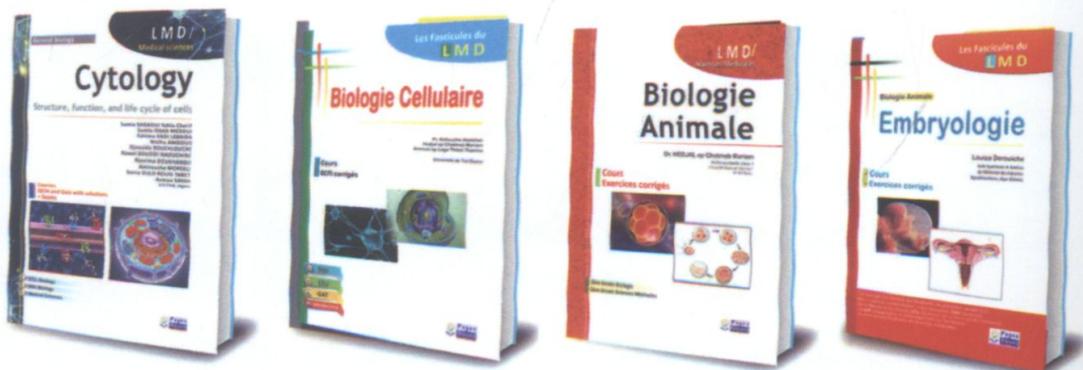

Forward	03
Table of contents	05
Chapter 1: Epithelial Tissue	07
I.1. Introduction: The concept of tissue	08
I.2. The covering epithelium	10
I.3. Glandular epithelia	15
II.1. Exocrine glands	17
II.2. The endocrine glands	25
<i>Questions and Answers</i>	33
Chapter 2: Connective tissue	37
1.Generalities	38
2.Definition	39
3.The basic components of connective tissues.	39
4.The main varieties of specialized connective tissue (classification)	45
<i>Questions and Answers</i>	50
Chapter 3: Blood tissue	53
1.Generalities	54
2.Composition of blood	54
3.Blood smear	59
<i>Questions and Answers</i>	61
Chapter 4: Cartilage tissue	63
1.Generalities	64
2.Structure of cartilage	64
3.The varieties of cartilage tissue	66
4.Nutrition of cartilage tissue	68
5.Cartilage growth	69
<i>Questions and Answers</i>	71
Chapter 5: Bone tissue	73
1. Generalities	74
2.The constituents of bone tissue	74

3.The different types of bones	79
4.Classification of bone tissues	80
5.Bone marrow	83
6.Envelopes of bone tissue	84
7.Vascularization and innervation	85
8.Histogenesis of bone tissue	85
<i>Questions and Answers</i>	89
Chapter 6: muscle tissue	91
1.Generalities	92
2.Skeletal striated muscle tissue	92
3.Cardiac striated muscle tissue	101
4.Smooth muscle tissue	105
<i>Questions and Answers</i>	110
Chapter 7: Nervous Tissue	113
I. Nerve Cell: The Neuron	115
1.General Structure	115
2.Synapses	118
3.Classification of Neurons	119
II. Nerve fibers	121
1.Generalities	121
2.Classification	121
3.Peripheral nerves	123
4.Vascularization and innervation	124
<i>Questions and Answers</i>	125
Bibliography	127

Animal Biology

In this Book:

- Surface epithelial tissues
- Glandular epithelia
- Proper connective tissues
- Blood tissue
- Cartilaginous tissues
- Bone tissues
