Preface xi

PART ONE: Introduction

1 The nature of research 3
Introducing research 3
Experiencing research 3
Compiling research data 6
Analyzing research data 6
Designing research 10
Interpreting definitions of research 15
The significance of defining research 16
Reflecting on research definitions 17
Summary 18

PART TWO: Qualitative research

2 Case study research: developmental research 21
Introducing case study research 21
Experiencing case study research 22
Compiling case study data 27
Analyzing case study data 30
Reporting your results 32
Designing case study research 36
Interpreting case study research 43
Significance of case study research 47
Reflecting on case study research 49
Summary 51

3 Introspection research: verbal protocols 53
Introducing introspective research 53
Experiencing introspective research 57
Compiling introspective data 61
Analyzing introspective data 63
Designing your own introspective research study 69
Interpreting introspective research 71

Significance of introspection as a scholarly focus 74
Reflecting on introspective research 75
Summary 78

4 **Classroom research: interaction analysis** 79
Introducing classroom research 79
Experiencing classroom research 80
Compiling classroom research data 87
Analyzing classroom interaction data 90
Designing your own classroom research 94
Interpreting classroom research 101
Significance of classroom research 105
Reflecting on classroom research 110
Summary 112

PART THREE: Quantitative research

5 **Descriptive statistics research: survey analysis** 117
Introducing descriptive statistics research 117
Experiencing descriptive statistics research 118
Compiling descriptive data 122
Analyzing descriptive data 122
Designing your own descriptive research 142
Interpreting descriptive research 147
Significance of descriptive research on teacher beliefs 151
Reflecting on descriptive research 154
Summary 156

6 **Correlational research: language learning/teaching attitudes** 157
Introducing correlational research 157
Experiencing correlational research 159
Compiling correlational data 162
Analyzing correlational data 166
Designing your own correlational research 180
Interpreting correlational research 184
Significance of correlational research comparing students' and teachers' attitudes 191
Reflecting on correlational research 192
Summary 193

7 **Quasi-experimental research: vocabulary learning techniques** 195
Introducing experimental research 195
Experiencing experimental research 195
Compiling experimental data 201
Analyzing experimental data 201
Designing your own experimental studies 211
Interpreting experimental studies 219
Significance of experimental research in teaching vocabulary 222
Reflecting on experimental research 223
Summary 224

PART FOUR: Conclusion

8 **Course evaluation: combining research types** 227
Introducing evaluation research 227
Experiencing evaluation research 228
Compiling evaluation data 233
Analyzing evaluation data 233
Reporting evaluation results 238
Designing your own evaluation studies 241
Interpreting evaluation studies 245
Significance of evaluation studies 247
Reflecting on evaluation research 250
Summary 256

Answer keys 257
Chapter 2 257
Chapter 6 258
Chapter 7 260

Appendices 264
Chapter 3 264
Chapter 4 271
Chapter 7 278
Chapter 8 280

Glossary 287
