The background of the book cover is a complex abstract composition. It features a dark blue base with various green elements: a large, textured green shape in the top left; a green spiral in the bottom left; a green triangle in the middle left; and a large green triangle in the middle right. There are also white and light green geometric shapes, including a circle in the top right and a triangle in the bottom right. The overall effect is a layered, textured design.

Vocabulary, Semantics, and Language Education

Introduction 1

Part I Semantics 13

1 Semantic features and semantic feature analysis 14

Features 14

Features in synonyms and antonyms 19

Features in definitions 23

Semantic features and grammar 24

Evaluation of semantic feature analysis 28

Research and application 31

2 Semantic field analysis 33

Semantic fields 33

Semantic field displays 37

Evaluation of semantic field analysis 41

Research and application 44

3 Core meanings and prototype theory 47

Core meanings 47

Prototypes 52

Fuzzy categories, levels, and prototypes 58

Research and application 61

4 Relational models in semantics 64

Types of relations 65

Relational models 71

Relational models in dictionaries 75

Applying relational models 77

Research and application 83

Contents

5	Semantics of figurative language	86
	Pervasiveness of figurative language	86
	Categorizing figurative language	88
	Metaphor as a universal process	92
	Acquisition of metaphor	99
	Literary and conceptual metaphor	102
	Social models and metaphor	105
	Metaphors of teaching and learning	107
	Research and application	112
6	Semantic space across languages	115
	Universal categories	116
	Acquisition and error analysis	124
	Error analysis, loan translation, and cognates	127
	Predicting difficulty	131
	Research and application	138
7	Script semantics and conceptual structure	145
	Scripts	145
	Scripts and semantics	151
	Script semantics, language teaching, and testing	156
	Thematic and conceptual structure theory	158
	Summary of Part I	163
	Research and application	164
Part II Lexicon		169
8	Adding to the lexicon	170
	Borrowing	170
	Coinage	175
	Names of people and places	176
	Conversion	179
	Shifts	181
	Research and application	185
9	Processes in word building	189
	Compounding	189
	Acquisition of compounds	193
	Reduplication	196
	Phrasal lexicon	199
	Idioms and proverbs	202
	How large can a lexical unit be?	206

Clipping	208
Initialization and acronyms	210
Blends	211
Research and application	213

Part III Lexical cases and morphology 217

10	Word classification	218
	Nouns	219
	Verbs	222
	Adjectives	228
	Adverbs	230
	Pronouns	234
	Conjunctions	238
	Prepositions	243
	Articles and demonstratives	247
	Research and application	254
11	Morphology and derivations	261
	Identifying morphemes	261
	Classifying morphemes	264
	Derivations	268
	Derivational prefixes	271
	Derivational suffixes	275
	Other derivational processes	279
	Research and application	281
12	Inflectional morphology	285
	Inflections	285
	Morpheme acquisition studies	288
	Errors in inflections and derivations	294
	Morphophonemic change	296
	Research and application	298

Part IV Vocabulary choice and discourse use 301

13	Variation in vocabulary choice	302
	Geography	302
	Gender	307
	Age	309
	Occupation	312
	Education	314

Contents

Group and individual choices	316
Formality	319
Research and application	325
14 The vocabulary of communication signals and speech acts	328
Communication signals	328
The lexicon of speech acts and speech events	348
Research and application	363
Part V Vocabulary learning and vocabulary teaching	367
15 General vocabulary learning and learner strategies	368
General issues	368
Five essential steps in vocabulary learning	372
Learner compensation strategies	392
Research and application	397
16 Vocabulary pedagogy and teacher strategies	401
Unplanned vocabulary adjustments and teaching	401
Planned vocabulary adjustments and teaching	405
Research and application	423
Conclusion	426
References	427
Index	457
